S7 1214

DESCRIPTION

Advanced S7 1200 CPU 1212 PLC Training unit is in a lockable case. Siemens KTP 700 touch panel is used. For economical solutions, the KTP 400 can also be an option, but the process can also be done without a screen.

All input and output connections on the unit can be connected via banana plugs and banana plug cables. Various options are presented for the elements used on the unit. Special adjustments can be made according to your wishes and needs.

PRODUCT CONTENTS

- Locking aluminum carry case
- Case dimensions: 450 (L) x 335 (W) x 120 (H)
- S7 1200 PLC
- CPU 1212
- KTP700 touch panel
- SM 1223 Digital input/output module
- SB 1232 Analog output module
- Scalance
- Emergency stop module
- Power unit
- Power socket (with fuse)
- Digital input simulator (16 pcs)
- Nickel plated brass indicator for input simulator (16 pcs)
- Toggle switch (16 pcs)
- Digital output simulator (14 pcs)
- Nickel plated brass indicator for output simulator (14 pcs)
- Potentiometer (2 pcs)
- Buzzer
- Analog input (3 pcs)
- Analog output (2 pcs)
